## About Us

Apova works with world-class manufacturers whose products have proven strength and flexibility, as well as outstanding resistance to corrosion and chemical attack. This results in products having quality assurance that exceeds the industry's most demanding standards, as well as third-party certification from organizations, such as the ABS, DNVGL, RINA, BV, WRAS, KIWA, DVGW, FM, NSF and many more.

Apova's mission is to provide solutions that make clean water, sanitation, and energy accessible to all people. Our group has fully engineered electromechanical and building service solutions for construction projects. Its track record includes some of Oman, Kuwait, Abu Dhabi, and Dubai's most prestigious and iconic developments in marine, industry, hotels, hospitals, and malls.

Whatever your project needs, APOVA will ensure that it is delivered on time, within budget and to the highest standards.

## Applications

- Fresh water
- Cold Water
- Rainwater
- Compressed Air
- Refrigeration 130 bar at 150° C
- Chemical HCL, Coagulant
- Ultra-Pure Water De ionized

## Applications

- Hot Water
- Drainage
- Grease Interceptor Tank
- Chilled Water
- Oxygen, Nitrogen
- Lab waste
- Medical Gas
