

# SUSTAINABILITY INITIATIVES

We have committed to make carbon reduction by 50% before 2026 by following ways

- By reducing Electricity consumption by various means – Use sensor to auto power off at various stations, use cyclic timer for A/Cs,etc
- Implement Solar power in at least one unit

# SUSTAINABILITY INITIATIVES

Sensor to auto power off, Implemented at Conference room and other 5 places

Replaced all lighting into LED, nomore tubelights and bulbs

A/C cyclic timer installed at A/Cs
